8 **SECTION 3.** The State Bureau of Investigation (SBI) shall encourage and seek
9 collaborative opportunities and grant funds for research programs, in association whenever
10 possible with the university system or independent nationally recognized forensic institutions,
11 on human observer bias and sources of human error in forensic examinations. Such programs
12 might include studies to determine the effects of contextual bias in forensic practice (e.g.,
13 studies to determine whether and to what extent the results of forensic analysis are influenced
14 by knowledge regarding the background of the suspect and the investigator's theory of the
15 case). In addition, research on sources of human error should be closely linked with research
16 conducted to quantify and characterize the amount of error. Based on the results of these
17 studies, and in consultation with the North Carolina Forensic Sciences Advisory Board, the
18 North Carolina State Crime Laboratory should develop standard operating procedures (that will
19 lay the foundation for model protocols) to minimize, to the extent possible, potential bias and
20 sources of human error in forensic science. These standard operating procedures should apply
21 to all forensic analyses that may be used in litigation.

22 **SECTION 4.** Individual certification of forensic science professionals at the State
23 Crime Laboratory shall be mandatory as soon as practicable, but no later than June 1, 2012,

25 professionals shall have access to the certification process.

26 **SECTION 5.** The Revisor of Statutes shall replace the name of the State Bureau of
27 Investigation Laboratory, or any other name which is identified with the State Bureau of
28 Investigation Laboratory, with the name "North Carolina State Crime Laboratory" wherever
29 first used in a statute or session law and with "State Crime Laboratory" at each subsequent
30 location in the statute or session law.

31 **SECTION 6.** The position of ombudsman is created in the North Carolina State
32 Crime Laboratory within the North Carolina Department of Justice. The primary purpose of
33 this position shall be to work with defense counsel, prosecutorial agencies, criminal justice
34 system stakeholders, law enforcement officials, and the general public to ensure all processes,
35 procedures, practices, and protocols at the Laboratory are consistent with State and federal law,
36 best forensic law practices, and in the best interests of justice in this State. The ombudsman
37 shall mediate complaints brought to the attention of the ombudsman between the SBI and
38 defense counsel, prosecutorial agencies, law enforcement agencies, and the general public. The
39 ombudsman shall ensure all criminal justice stakeholders and the general public are aware of
40 the availability, responsibilities, and role of the ombudsman and shall regularly attend meetings
41 of the Conferences of the District Attorneys, District and Superior Court Judges, Public
42 Defenders, the Advocates for Justice, and Bar Criminal Law Sections. The ombudsman shall
43 make recommendations on a regular basis to the Director of the State Crime Laboratory,
44 Director of the SBI, and Attorney General of North Carolina as to policies, procedures,
45 practices, and training of employees needed at the Laboratory to ensure compliance with State
46 and federal law, best forensic law practices, and to resolve any meritorious systemic complaints
47 received by the ombudsman.

48 **SECTION 6A.** The funds for the position of ombudsman created in Section 6 of
49 this act shall be provided by the Department of Justice from other funds appropriated to the
50 Department, and from other grants or funding that are available from other sources.

4 DNA, as that term is defined in G.S. 15A-266.2(2), that states the results of the analysis and
5 that is signed and sworn to by the person performing the analysis may be admissible in
6 evidence without the testimony of the analyst who prepared the report in accordance with the
7 requirements of this section.

26 aver in the affidavit that the tests were performed pursuant to the ~~ASCLD/LAB accrediting~~
27 body's standards for that discipline and that the evidence was handled in accordance with
28 established and accepted procedures while in the custody of the laboratory. The affidavit shall
29 be sufficient to constitute prima facie evidence regarding the person's qualifications. The
30 analyst shall attach the affidavit to the laboratory report and shall provide the affidavit to the
31 investigating officer and the district attorney in the prosecutorial district in which the criminal
32 charges are pending. An affidavit by a forensic analyst sworn to and properly executed before
33 an official authorized to administer oaths is admissible in evidence without further
34 authentication in any criminal proceeding with respect to the forensic analysis administered and
35 the procedures followed.

51 committed or the prosecution of the defendant.

- 1 a. The term "file" includes the defendant's statements, the codefendants'
2 statements, witness statements, investigating officers' notes, results of
3 tests and examinations, or any other matter or evidence obtained
4 during the investigation of the offenses alleged to have been
5 committed by the defendant. When any matter or evidence is
6 submitted for testing or examination, in addition to any test or
7 examination results, all other data, calculations, or writings of any
8 kind shall be made available to the defendant, including, but not
9 limited to, preliminary test or screening results and bench notes.
- 10 b. The term "prosecutorial agency" includes any public or private entity
11 that obtains information on behalf of a law enforcement agency or

13 committed or the prosecution of the defendant.
- 14 c. Oral statements shall be in written or recorded form, except that oral
15 statements made by a witness to a prosecuting attorney outside the
16 presence of a law enforcement officer or investigatorial assistant
17 shall not be required to be in written or recorded form unless there is
18 significantly new or different information in the oral statement from
19 a prior statement made by the witness.

36 the witnesses or others to physical or substantial economic harm or coercion,
37 or that there is other particularized, compelling need not to disclose. If there
38 are witnesses that the State did not reasonably expect to call at the time of
39 the provision of the witness list, and as a result are not listed, the court upon
40 a good faith showing shall allow the witnesses to be called. Additionally, in
41 the interest of justice, the court may in its discretion permit any undisclosed
42 witness to testify.

- 45 (c) Upon request by the State, a law enforcement or prosecutorial agency shall make
