7 to the payment of such revenue bonds, including reserves for such purposes, and to pay the  
8 interest on and the principal of such revenue bonds as the same shall become due and payable

10 payment of any general obligation bonds issued under this Article, such rents, rates, fees, and  
11 charges shall be fixed and revised so as to comply with the requirements of such pledge.

12 (c) The district board may provide methods for collection of such rents, rates, fees, and  
13 charges and measures for enforcement of collection thereof, including penalties and the denial  
14 or discontinuance of service.

16 A right-of-way or easement in, along, or across any State highway system, road, or street,  
17 and along or across any city or town street within a district is hereby granted to a district in case  
18 such right-of-way is found by the district board to be necessary or convenient for carrying out  
19 any of the work of the district. Any work done in, along, or across any State highway system,

11           district under such contract.

12           (4)       To pay any obligation of such political subdivision to the district under such  
13           contract from any available funds of the political subdivision and to levy and  
14           collect a tax ad valorem for the making of any such payment.

22       **"§ 162A-85.21. Submission of preliminary plans to planning groups; cooperation with**  
23       **planning agencies.**

24           (a)       Prior to the time final plans are made for the location and construction of any water  
25           system or sewerage system, the district board shall present preliminary plans for such  
26           improvement to the county or municipal governing board for their consideration if such facility  
27           is to be located within the jurisdiction of any such county or municipality. The district board  
28           shall make every effort to cooperate with the county or municipality in the location and  
29           construction of a proposed facility authorized under this Article.

30           (b)       Any district board created under the authority of this Article is hereby directed,  
31           wherever possible, to coordinate its plans for the construction of water system or sewerage  
32           system improvements with the overall plans for the development of the planning area if such  
33           district is located wholly or in part within a county or municipal planning area.

34           (c)       The approval of any such plan of the district shall be required from the governing  
35           body of the county or municipality prior to the start of construction.

36       **"§ 162A-85.25. Adoption and enforcement of ordinances.**

37           (a)       A district shall have the same power as a city under G.S. 160A-175 to assess civil  
38           finances and penalties for violation of its ordinances and may secure injunctions to further ensure  
39           compliance with its ordinances as provided by this section.

40           (b)       An ordinance may provide that its violation shall subject the offender to a civil  
41           penalty of not more than one thousand dollars (\$1,000) to be recovered by the district in a civil  
42           action in the nature of debt if the offender does not pay the penalty within a prescribed period  
43           of time after he has been cited for violation of the ordinance. Any person assessed a civil  
44           penalty by the district shall be notified of the assessment by registered or certified mail, and the  
45           notice shall specify the reasons for the assessment. If the person assessed fails to pay the  
46           amount of the assessment to the district within 30 days after receipt of notice, or such longer  
47           period, not to exceed 180 days, as the district may specify, the district may institute a civil  
48           action in the General Court of Justice of the county in which the violation occurred or, in the  
49           discretion of the district, in the General Court of Justice of the county in which the person  
50           assessed has his or its principal place of business, to recover the amount of the assessment. The  
51           validity of the district's action may be appealed directly to General Court of Justice in the

1 county in which the violation occurred or may be raised at any time in the action to recover the  
2 assessment. Neither failure to contest the district's action directly nor failure to raise the issue of  
3 validity in the action to recover an assessment precludes the other.

4 (c) An ordinance may provide that it may be enforced by an appropriate equitable  
5 remedy issuing from court of competent jurisdiction. In such case, the General Court of Justice  
6 shall have jurisdiction to issue such orders as may be appropriate, and it shall not be a defense  
7 to the application of the district for equitable relief that there is an adequate remedy at law.

8 (d) Subject to the express terms of an ordinance, a district ordinance may be enforced  
9 by any one, all, or a combination of the remedies authorized and prescribed by this section.

10 (e) An ordinance may provide, when appropriate, that each day's continuing violation  
11 shall be a separate and distinct offense.
